

**Positive Motivation Dog Training
587 County Road 519
Belvidere, New Jersey, 07823**

Telephone: 908-459-5244

Directions:

From the east: Take Route 80 west to exit 12. (Hope/Blairstown) Make a left at the end of the ramp. ** Go into Hope to the traffic light (approx. 1 mile). Continue straight on 519 and from the light, go exactly 5.8 miles. Building is on the right (Gray building. You will actually see a deep red building before you see the gray one.)

From Route 80 coming EAST (from the Delaware Water Gap Bridge, PA): You have a choice - you can go to exit 12 (Hope/Blairstown) and make a right at the end of the ramp and follow from ** above, OR you can go to Exit 4 B (I think - it is the #4 exit that says Route 46). Get onto route 46 East and go 8 miles. When you get to the light that intersects route 519, (There is actually no sign that says Rt 519, but you will be making a left onto N. Bridgeville Rd, which is Rt 519) make a left and go 4/10 of a mile and make a left into the parking lot at the building.

From the south (by the way, I clocked it and it only takes 30 minutes from Clinton area): (Trenton, Flemington, Washington areas) Take 31 north to the very end. Make a left onto Route 46 west. Go 1.6 miles to the first light and make a right onto route 519. (There is actually no sign that says Rt 519, but you will be making a right onto N. Bridgeville Rd, which is Rt 519) Go 4/10 of a mile and make a left into the parking lot at the building.

From the north: (northern NJ and NY and CT and MA). Take the Tappen Zee Bridge and get onto 287 South (it is south in NJ) and go to exit 41B (I think it is B) and get onto 80 WEST. Take Route 80 west to exit 12. (Hope/Blairstown) Make a left at the end of the ramp. Go into Hope to the traffic light (approx. 1 mile). Continue straight on 519 and from the light, go exactly 5.8 miles. Building is on the right (Gray building. You will actually see a deep red building before you see the gray one.)

From PA (Columbia Portland Bridge): Get off onto Rt 46 east and from the top of the exit ramp, go exactly 8 miles and make a left at the light on the corner of 519 and 46. (There is actually no sign that says Rt 519, but you will be making a left onto N. Bridgeville Rd, which is Rt 519). Go 4/10 of a mile and the building is on the left.
